Original WKT Mounting Rail ZS

with predetermined dividing sections

- especially low rail for a quick installation of tubes 16 and 17 mm (1/2")
- the big bottom openings allow that the concrete forms strength bridges
- additional openings allow to fix the rail with holding pins, metal screws or plastic nails
- pre-scored break lines every 10 cm (4") allow an easy cutting of the rail without tools
- the total height of the rail is only 22,5 mm (7/8") - extremely low

Meets all demands of the Swiss SIA V 251/1
